

## EAVESVENT ELEMENT

Eaves ventilation element made of plastic  
available with or without comb

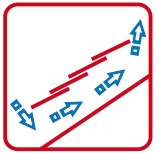

## EAVESVENT COMB

Eaves ventilation comb made of  
aluminium, copper or plastic

### ADVANTAGES AND BENEFIT

- fast and easy installation
- available in different colours

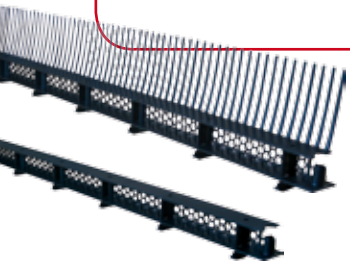

## TECHNICAL INFORMATION

Base material	polypropylene, copolymer
Length	1.000 mm
Element height	32 mm
Comb height	60 mm
Standard colours	red brown black

## MATERIAL PROPERTIES

- Precast nail holes**
  - for easy assembly
- Spacers**
  - for unchecked water outlet
  - for compensation of unevenness
- Ventilation square**
  - $\geq 200 \text{ cm}^2$  per m (according to DIN 4108-3)
- Vent comb**
  - break-proof
  - adaption to the tile profile

# EAVESVENT COMB

## TECHNICAL INFORMATION

### EavesVent Comb Aluminium

Base material	aluminium
Length	1.000 mm
Height	60 mm
Thickness	0,48 mm
Standard colours	red, brown/anthracite

### EavesVent Comb Copper

Base material	copper
Length	1.000 mm
Height	60 mm
Thickness	0,3 mm
Standard colours	natural

### EavesVent Comb Plastic

Base material	polypropylene, copolymer
Length	1.000 mm
Height	60, 120 mm
Standard colours	red, brown, black

## MATERIAL PROPERTIES

- Aluminium**
  - full metal product
  - highly durable and weather resistant
  - high quality colour coating
  - precast nail holes
- Copper**
  - high form- and function resistance
  - fully recyclable
  - precast nail holes
- Plastic**
  - with flat comb
  - precast nail holes
