

ADHESIVE AND SEALING COMPOUNDS

for various adhesions and sealings

PRODUCT INFORMATION

ADHESIVE AND SEALING COMPOUNDS

AirTex® HD

- adhesive tape for repairing and connecting underlay- and sheeting membranes, suitable for watertight adhesion, solvent-free
- AirTex® HD 100 mm: For adhering counter ceiling sheets (OSB) and soft-fibre sheets, also suitable for use on roof exterior

Comband 100

- compressed band made of flame-retarding dipped, pre-compressed polyurethane soft foam, single-sided self-adhesive

Bitumen sealing tape

- adhesive tape, aluminium-laminated

AirTex® nail sealing tape

- adhesive tape used as roof batten covering for sealing nail penetrations under the counter batten

Kip® fabric adhesive tape

- adhesive tape made of extra strong adhering PE-coated fabric to adhere surfaces like stone, plaster or stonework, not suitable to adhere vapour barriers, underlay- and sheeting membranes

AirTex® connecting tape

- butyl adhesive tape for connecting foils to roof penetrations, reversible adhesive

MAGE roof sealing compound

- joint sealant based on bitumen-elastomer basis, permanently elastic

MAGE membrane adhesive tape

- adhesive sealing compound on dispersal basis for air tight adhesions of vapour barriers to a building (according to DIN 4108-7)

TECHNICAL INFORMATION

	colour	length	width
AirTex® HD	white	50 m (1968.50)	55 mm (2.16) 100 mm (3.94)
Comband 100	black	12,50 m (492.13) 10,00 m (393.70) 8,00 m (314.96)	10 mm (0.39) 15 mm (0.59) 20 mm (0.79)
Bitumen sealing tape, alu	black	10 m (393.70)	150 mm (5.90) 225 mm (8.86)
AirTex® nail sealing tape	anthracite	30 m (1181.10)	50 mm (1.97) 60 mm (2.36)
Kip® fabric adhesive tape	silver	50 m (1968.50)	50 mm (1.97)
AirTex® connecting tape	black	50 m (1968.50)	20 mm (0.79)
